Our most active customers will receive our bulletin automatically and free of charge. However, collectors interested in highly specialized areas and those who may order infrequently are asked to subscribe, as are those who want the bulletin by air mail. The names of non-subscribers may be removed from our mailing list at any time without notice.

Postage and insurance (or registration) fees will be billed to customers who order without sending advance payment. We will absorb the mailing fees on orders accompanied by full payment. All orders under \$5.00 must include \$.25 for handling. The above also applies to overseas orders. However, we cannot be liable for coins sent to countries that do not provide for insurance.

Applicable Texas Sales Tax must be included on all intra-Texas transactions. Texas dealers must furnish their permit number in order to be exempt from the tax. All prices quoted are in United States Funds.

All coins are guaranteed to be genuine unless otherwise noted. All items except books and coin supplies are sent on five day approval. Unless prior extension is arranged, all items must be completely paid for within fourteen days after their dispatch from our offices. After that a 1% per month interest charge will be added.

Most are engraved on Spanish-American or German coins; and the majority of the names are German. Made for an individual from a Spanish-American family. The diameter of the bracelet is about 6 1/2 inches. If these pieces were sold separately, they would probably bring double the price, but we feel it would be a shame to break up the most interesting bracelet we have seen over the past several years 100.00
- * LOVE TOKEN PENDANT: Quite similar to the above but only 8 tokens and apparently meant to hang from a necklace (from the same family) 35.00

TALLIES AND TOKENS OF JAMAICA

We are pleased to be able to present a consignment of Jamaican tallies and tokens which was formed over the last 30 years by a resident of the West Indies. It is the most complete group that we have ever seen and feel that it will be of great interest to any numismatist specializing in this fascinating series. We have placed arbitrary numbers to the left to help in placing your orders. Immediately to the right of this number we have placed the catalog number when available. The "P" numbers are taken from "THE GUIDEBOOK & CATALOG OF BRITISH COMMONWEALTH COINS" (third edition) by J. Remick, S. James, et al. This book is available from us now at a reduced price of \$6.50 only postpaid. The "JT" numbers are taken from the article "JAMAICA HOARD UNCOVERS NEW TOKENS" by Mr. Ray Byrne, which appeared in the November 1972 issue of "WORLD COINS" magazine. We are extremely interested also in purchasing or receiving on consignment this type of material and invite your offers.

EARLY MEDALS - HISTORICAL MONUMENTS IN MINIATURE

Collect them yourself or choose as the ideal Christmas Gift.

We recently purchased the largest collection of the medals of Argentina known to us. This collection was purchased for research in conjunction with a book we are planning on the subject. The first book in our series on Latin American medals: "THE MEDALS OF ECUADOR" has already been released and is available for \$2.50 postpaid.

Because of the large total cost of this collection we would like to sell each piece after it has been photographed and recorded for our records. Our markup is indeed only nominal. Should you be interested in beauty engraved in metals, these medals have to be of interest to you. They commemorate worldshaking and minor events. National heroes, allegorical figures, art, trains, ships, (early ones, of course) and indeed dozens of different motifs of interest.

If you are a collector with an eye for investment potential, consider which is the better opportunity for financial returns. Or, simply if you enjoy beautiful things you will want to order them.

These beautiful historic medals were produced at the turn of the century in truly limited quantities - sometimes in the hundreds. All of the photos shown on this page are greatly reduced. No midget medals are included in any of these lots. All of them are dollar-size and over, mostly 60 mm. None are holed and all are in high grades. Your satisfaction is of course guaranteed and our normal return privileges apply if the lots are returned intact and undamaged.

NUMISMATIC LISTING OF MODERN & MEDIEVAL COUNTRIES

BY LEE GROSSMAN

NUMISMATIC LISTING OF MODERN & MEDIEVAL COUNTRIES by Lee Grossman is a must for the collector who is attempting to collect a coin from each issuing country in the world. Handy spaces are provided so that it can be used as a checklist. Over 850 listings, with most providing interesting historical details as well as basic numismatic information for the issuing agency in question. 65 pages and scores of illustrations. Should you be an advanced collector with an advanced library and feel that a work of this nature would be repetitious, think of the young collector you know who would be thrilled to receive this veritable storehouse of knowledge.

GUATEMALA

We are hereby offering an extensive selection of the coinage of Guatemala. These are probably the most under-rated coins of the Latin American series and undoubtedly great price increases will register in the near future. We recommend the collecting of this series, either by dates or by types.

WE ARE EXCLUSIVE DISTRIBUTORS OF THIS GREAT BOOK MEDALS OF MEXICO

VOLUME II (1821-1971) BY F. W. GROVE

A monumental work, the best book ever on Mexican numismatics, featuring medals for a period of 150 years. This work which took 5 years of research, covers medals of Mexico from its early independence in 1821 to the present. It covers medals issued under the Emperor Iturbide. After his short reign, medals were issued during the 40-year Republican period. During the French Intervention, lasting four years (1863-1867) and upon the re-establishment of the Republic by Benito Juarez in 1867 to the present, hundreds of private, provincial, revolutionary, and federal medals were struck to commemorate both world-shaking and minor events. The author has additionally included a special section on medals issued for advertising by corporations and the like. The book throughout is laced with many interesting comments on many of the historical events which contribute to the rich, historic, and cultural background of Mexico. This book contains a total of 480 pages (2½ times the size of Volume I, covering the Colonial Period). About 1,500 illustrations on glossy paper, evaluations included on each medal, hard bound with golden eagle embossed. This is truly the most well-researched work on Mexican numismatology, possibly only after five years of painstaking research. You may order directly from us at 15.00
